Notice to Parents:

Career Programs are intended to help prepare students for the transition from secondary school to the world of work or further education and training. The community becomes the classroom where students gain knowledge and experience about the workplace and review career goals. Through work experience students will have the opportunity to observe and practice generic employability skills required in the workplace and, in some cases, to practice technical skills relating to specific occupations. Students in the WEX program do not generally receive financial benefit.

Work Experience (WEX)

The Work Experience program enables students to experience the world of work in a career path they are considering for their future. Students will gain an appreciation of what work in their chosen field area is like. Students select fields or occupations from a number of work areas for their work experience:

- | | |
|----------------------------------|-------------------------------|
| - Business and Applied Finance | - Health and Human Science |
| - Science and Applied Science | - Liberal Arts and Humanities |
| - Arts, Design and Media | - Fitness and Recreation |
| - Tourism, Hospitality and Foods | - Trades and Technology |

Information regarding types of occupations under each category and courses taken in support of these categories can found in the Careers section of the Delta School Board website:

<https://www.deltasd.bc.ca/programs/career-programs/>

Before starting work experience placements students are given employment instruction in school. This class time prepares students for work they will be doing "off-campus" and includes safety and professional conduct instruction. The bulk of the program (90-100 hours) is completed at the place of business of the employer. WEX students work with the WEX coordinator to find their work placement. The WEX coordinator works closely with the employer to establish guidelines and ensure a mutually beneficial experience for all parties.

Benefits to STUDENTS

Work Experience provides students with the following benefits:

- earn 4 credits for exploring the workplace at a practical level
- make decisions based on a realistic understanding of the workplace
- develop qualities and skills that are transferable to, and contribute to success in, employment and career development
- increase awareness of interests and aptitudes
- develop self-confidence

I give my son/daughter permission to enroll in the Delta Secondary School Work Experience Career Preparation program –

_____ **Print your name**

_____ **Sign your name**

_____ **Date**

Please complete both sides of this form and return it to Ms. Colls and/or Ms. Veltkamp as soon as possible.
